

# PMP PREP Course (2 days)

This two day course is designed to help you prepare for the PMP Exam—and gain the most understanding of project management with the least amount of study. Developed by Rita Mulcahy, this course is designed to decrease your after-class study time from hundreds of hours to less than 40.

Unique features of this course include games, exercises, case studies and other tools to help you understand—NOT MEMORIZE—the concepts necessary to pass the PMP exam. This course includes Rita's entire PMP Exam Prep System for free as part of the course materials.

This course is offered in both open and in-house versions.

## Course features

Unique features of this course include games, contests, case studies, exercises and other tools to help you understand—not memorize—the material. This course will also assist you in finding and documenting the gaps in your knowledge, so you can leave the class knowing exactly what you know, and exactly what you need to work on prior to sitting for the exam.

By the end of this course you will:

- Be extremely close to passing the exam!
- Decrease your study time to 40 hours (this is 150 to 300 hours less than what is required by other courses).
- Have the latest information from many years of experience helping thousands of project managers pass the exam.
- Have focused training on areas where students have the most difficulty with the current exam.
- Be "prepped" to take the exam - this is a prep course and a review course.
- Know the secrets to taking and passing the exam.
- Have a personalized study plan.
- Have received four times more information than available in many other prep courses.
- Have had individual attention.
- Have learned what you do not know.
- Have insider tips.

This course entails 16 hours of training over the course of two consecutive 8-hour days. This is an intensive exam preparation course, so students should not expect the class to end early. Classes that are scheduled to end at 5pm or 6pm typically end promptly at that time, and students who leave early will miss important exam-related information, and could risk losing all earned Contact Hours.

## Why take this course?

### Study Time

Only 40 hours of study or less needed after this course. That is 70% less study than is usually necessary with other courses. Become a PMP® in one week!

### Retention

Students recently scored an incredible average 83.25% on a sample PMP® exam after taking this course, before they even began studying. Passing is 61% for the PMP® exam.

### Materials and Extras

RMC Project Management offers students a comprehensive system of products as part of their classroom training registration. These materials include the best-selling book PMP® Exam Prep by Rita Mulcahy, PM FASTrack® Exam Simulation Software, and Hot Topics flashcards (audio CD version). Also included in this course are materials not available to the general public.

### Course materials

Course materials will include Rita Mulcahy's PMP® Exam Prep book, PM FASTrack® exam simulation software, and Hot Topics Flashcards, plus additional materials not available to the public. The book includes hundreds of pages of detailed review materials including coverage of material not in the PMBOK®, sample exams, exercises and activities.

Note: these materials are included as part of the course, and you will NOT receive a discount on your course registration if you already own any or all of them.

## Course Outline
