

ESG reporting for experienced professionals

Upgrading from GRI to ESRS

PwC's Academy tailored this course to the needs of participants who already have experience with ESG reporting and do not need to start from the basics.

You will appreciate this training if you already report on sustainability on a voluntary or mandatory basis, based on Global Reporting Initiative (GRI Standards) or another methodology. Although this is a very good ground for fulfilling the future obligations imposed on large EU companies and groups by the CSRD directive, there are some significant differences that will require a robust preparation.

We will take you through the major differences between voluntary (e.g. GRI-based) and mandatory CSRD reporting and explain their practical implications for the report content, process and sustainability governance.

Our tutor: Radka Nedvěďová, ESG & non-financial reporting

Radka is a manager and PwC Academy tutor with more than 20 years of experience across various fields and industries. She led and participated in audit and consulting projects and she leverages her experience and expertise to support the professional and personal development of PwC's clients and employees. As a founding member of PwC's ESG team, Radka specialises in non-financial reporting and related regulations and co-operates on ESG strategy projects and stakeholder dialogues. She is a member of international PwC working group for CSRD and ESRS.

We will focus on the following topics (and more):

- ❖ Double materiality assessment – extended by financial perspective of ESG matters;
- ❖ Inter-operability, similarities and differences between GRI and ESRS requirements and indicators;
- ❖ New mandatory disclosures in ESRS (differences and additions);
- ❖ Inclusion of entity-specific (industry) disclosures in the absence of ESRS sector standards;
- ❖ Mandatory EU Taxonomy disclosures (new to majority of reporters);
- ❖ Requirements for structure and form of the report, integration to annual report;
- ❖ Rules for claiming an exemption due to inclusion in consolidated report prepared by parent company;
- ❖ Mandatory external assurance.
