

Financial reporting issues

Acquisitions, group reorganisations and Consolidation

- How shall I start?
- How should I treat acquisitions and disposals?
- What should I be aware of when reorganising a group?
- Is there a more efficient way?

Have you ever asked any of these questions regarding consolidation? Our lead expert can answer your questions at our Acquisitions, group reorganisations and Consolidation master courses.

The course provides 6-month access to the **IFRS10 Consolidated financial statements** and the **IAS28 Investments in associates and joint ventures e-learning modules** immediately after registering, so participants can freshen up their basic IFRS knowledge about the subject before the master courses.

Acquisitions, group reorganisations 20 November 2024 (9 am – 1 pm CET)

- Introduction to consolidation - current issues, most common difficulties
- Different types of financial statements - which provides the highest value in different situations?
- Who and when shall be consolidated - formation of the group, definition of control
- Special accounting issues of acquisitions
- Effect of group reorganisations, related issues

Consolidation 22 November 2024 (9 am – 1 pm CET)

- Consolidation with practical examples
- Accounting issues of disposals
- Equity method in practice
- Reconciliation of separate and consolidated financial statements
- Tips for reviewing consolidated financial statements
- What makes financial statements “good”?
