

A photograph showing several people in a business meeting. They are wearing light blue shirts and are gathered around a table with documents and a laptop. One person is pointing at a document, and another is holding a pen. The background is slightly blurred, showing a window and office furniture.

## IFRS Update - 2024

Be up to date in IFRS with PwC's experts!

International Financial Reporting Standards are the world's most widely applied accounting standards and are constantly evolving. Course will provide an update on all the latest developments and trends in IFRS globally.

What are the hot topics in the world of IFRS in 2024?

- Have you heard that we are going to have IFRS 18 soon? We will share with you the latest news.
- Reporting requirements on sustainability and ESG are still evolving. We will discuss the actual hot topics.
- How to account for carbon offsets, since there is no specific standard dealing with this topic?
- As already you may have learned about the amendments for IAS 1 and about the new standard IFRS 17, this year we collected related examples and issues that we've seen in practice.
- In the area of taxes we will cover hot topics for Globe and we'll look at some classification issues with real life examples in CEE.
- Obviously we will be covering new amendments, IFRIC agenda decisions and developments in standard setting applicable for 2024 and beyond.

Who should attend?

This course is ideal for CFOs, accountants, financial analysts, finance directors, finance controllers/managers, audit practitioners and internal auditors who want to stay updated with the latest developments in IFRS and prepare for the impact of those on their business.
